

Gender Pay Gap 2023

As an employer with 250 employees or more, we are required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017. These calculations will show how large the pay gap is between male and female employees. As an umbrella payroll company, we have split our population in two, both our umbrella employees and our Head Office staff. This report is based on pay data as of 5th April 2023 and involves the standard six calculations required by law to show the difference between the average earnings of men and women.

We have split the population into two; internal head office employees and umbrella employees.

R. Wilks

Managing Director
